Airpack among top growing companies!

On Thursday the 17th of November the Financial Times, Holland's' biggest financial newspaper handed out the 'Gazelle Awards' for the fastest growing companies in the country.

For the eight year in a row the Gazelle Awards have been a major indicator for healthy and prospecting companies in Holland. This year a total of 239 companies were nominated.

Airpack Netherlands was among these nominees and took third place as one of the fastest growing companies in the region. This growth is reflected by the increase of Airpack's presence all around the globe in the oil and gas industry.

We will continue to strive for growth in the future and build an even vaster network together with our local agents, whom are now to be found in over 30 countries around the world.

For more information about our activities, projects and opportunities please contact our international sales office in the Netherlands.

Sincerely,

Mr. JP Warnar
President Airpack Netherlands
